

COPPA Policy

The Children's Online Privacy Protection Act (COPPA) was passed to give parents increased control over what information is used. The law applies to websites and services directed to, and which knowingly collect information from, children under the age of 13. Lee Bank's websites and online services are not deliberately or consciously collecting information from children under the age of 13. For additional information on COPPA protections, visit the Federal Trade Commission's website.
